Private Education Loan Application Disclosure Notice

Loan Interest Rate and Fees for NU Loans

Your starting rate will be between 4.0% and 10%. This rate is subject to change annually each September 1st. Your starting interest rate will be determined after you apply and your loan has been approved. The interest rate charged to you will be determined based upon what is certified by the Financial Aid Office. If approved, we will notify you of the rate you qualify for within the stated range.

Your interest rate during the life of the loan is variable. This means that your rate could move lower or higher than the rates on this form. The variable rate is based upon the costs of running the program and is not based upon any financial index. In some cases the outstanding interest will capitalize at the expiration of grace and forbearance periods. For more information, see the reference notes.

There is **no maximum interest rate cap** on this loan. However, the rates have never been higher than 10%. For more information on the history of the interest rates for the NU Loan, see the reference notes.

All other loans: The repayment example assumes that you remain in school for 4 years and have a 6 month grace period before beginning repayment. Variable Interest Rate

- This loan has a variable interest rate that is subject to change annually each September 1st. The rate will change based upon the costs of maintaining the program.
- There is no limit on the amount to which the rate may increase. See the following for more information on the history of the interest rate http://www.northwestern.edu/sfs/student_loans/loans_services/hist_rates.html
- Outstanding unpaid interest will capitalize at the expiration of grace and forbearance periods. Capitalization means that all unpaid interest at a point in time is added to the principal balance. Interest is then calculated on the higher loan balance.
